

FOREIGN WARSHIPS ON SCENE

Republican Flag is Float- ing Over the City of Amoy Today

WATER MAY BE POISONED

Strong Man of China Has Return- ed to the Capital—May Ac- cept Premiership.

Amoy, China, Nov. 14.—The radical element has gained the ascendancy here today, and Foo Chang was compelled to flee to Hong Kong during the night.

The city is panic-stricken today over the reports that the Manchus have made an attempt to poison the city water supply.

Two American warships and two British cruisers arrived in port this morning. The republican flag, escorted by 1000 troops, was raised and the city formally proclaimed to be the property of the republic. At all points the republican tri-colors are shown about the Chinese flags of white.

Peking, Nov. 14.—Accompanied by a bodyguard of 2000 imperial troops and marching between long lines of silent, bareheaded Chinese, Yuan Shi Kai, "the strong man of China," received an ovation on his return to the capital, from which he was driven scarcely three years ago into exile.

Yuan Shi Kai was "summoned" two weeks ago to return to Peking at once to assume the premiership, to advise the tottering throne and to place a steady hand on the trembling ship of state, but he has been postponing his arrival on various pretexts, until it was believed that he would not heed the throne's command.

Whether he will accept the premiership will be decided within twelve hours. If he accepts, it will mean important support for the Manchus, because Yuan Shi Kai represents military leadership and is the only man in China inspiring confidence enough to secure financial aid abroad.

A telegram from Hankow says that Admiral Seng's fleet, which has been upholding the imperial government's end of the conflict there for the past three weeks, has surrendered to the rebels. The fleet was without fuel and munitions, despite the fact that the Peking government has been besieged with requests to meet the difficulty.

The National Assembly yesterday discussed the immediate opening of parliament, but decided it would be inadvisable. The matter was referred to a committee, which will consult with Yuan Shi Kai.

The opinion is held at the legation that there are serious complications in store for China, and greater sufferings than she has yet endured. The prospects of foreign intervention by other powers than Russian and Japan are beginning to be discussed.

Winter is expected to terminate the massed movements of troops, but there will be greater death rolls through famine even in Chi-Li province. The people in the central section are already supplementing their food with the bark of trees.

The government continues gathering Manchus recruits at Peking, but soon will be unable to meet the payments. It is not believed here that the Chinese can mobilize a large enough army about Peking to venture an attack, but the government's inability to collect revenues from a single provincial capital is almost certain sooner or later to bring about capitulation.

A report reached here that 2000 imperialists at Hankow have joined the rebel ranks and that the remaining imperial gunboats at that port have gone over to the rebels.

JEWELRY STORE ROBBED TODAY

Cleveland, O., Nov. 14.—Watches and jewelry valued at \$2000 were stolen from the jewelry store of Morris Tockey here today by thieves, who secured articles of lesser value, took only the most valuable jewels in stock.

MATCHES; CHILD BURNS TO DEATH

Cincinnati, Nov. 14.—Lester Clark, aged 2, died today of burns inflicted when matches with which he was playing were fired.

MAYOR-ELECT SWARTZ NAMES APPOINTMENTS

Mayor-elect F. M. Swartz today announced his appointments, and they will take office at the same time as the new administration is sworn into office, Monday, Jan. 1.

Mr. Swartz's appointments are as follows:

Director of Public Service—James McCarthy.

Director of Public Safety—Wayne Collier.

Superintendent of Cemetery—A. J. Orilly.

Superintendent of Pest House—J. W. Sasser.

Weighmaster, City Scales—Frank Showman.

Superintendent of Streets—W. F. Holton.

Sealer of Weights and Measures—John J. Zimmerly.

Superintendent of City Parks—Albert Flynn.

The above men are all well known and no doubt will make faithful and painstaking officials. Mayor-elect Swartz will be surrounded by an official family that will put forth every effort to make his administration one of the best ever given the city.

DECISION IN THE GRAEF CASE WILL BE ANNOUNCED THIS EVENING AT 5:30

A decision in the Frank Graef murder trial will be made this evening at 5:30 o'clock. The case has developed into a veritable trial, Judges Weygant and Wickham sitting in the place of a jury. Witnesses were being called for and attachments for others were sent out by the sheriff at 3 o'clock this afternoon.

Jury prospects, witnesses, and attorneys-at-law were principally in evidence when the court of common pleas convened Tuesday. All were on the quiver of expectancy. Throughout the corridors, in the various offices and almost in the judges' sanctum sanctorum were questions being asked and either answered, guessed at or ignored.

The regular time came for court opening and a little later Judge W. E. Weygant took the bench in the trial of the case of first degree murder, called against Frank Graef.

This case is one well remembered and is in connection with the lynching of Carl Etherington. The defendant has been twice indicted for murder in the first degree, and is now a freedom under a bond of \$25,000.

While confined in the county jail, necrosis of the bone developed a serious turn, and an amputation of the member was made, the release upon bond having been given by Judge F. H. Nicholas of Coshocton county, upon the affidavit of a number of reputable physicians.

It has frequently been alleged that Graef, in an automobile, (at that time unable to get out) arose and urged the mob into the jail for the purpose of lynching Etherington.

Sympathy has been divided and thence interest in the scheduled trial was thus enhanced.

Nearly a hundred and fifty witnesses have been subpoenaed, and were present at nine o'clock Tuesday morning.

Frank Graef had Monday before Judge Wickham, in chamber, pleaded guilty to manslaughter.

This plea was made in the absence of prosecuting attorney Smythe, and when these men heard of it, they informed Judge Wickham that this plea was subject to the consent of the prosecuting attorney. Prosecutor Smythe, when told of the matter, stated that he would either approve or disapprove next morning, (which was Tuesday) until he could consult with his conferees on the matter.

Judge Weygant, the regularly appointed judge to try the case was on the bench Tuesday when the case was called, having arrived Monday night.

Judge Weygant was informed in open court by counsel for the defendant, consisting of J. R. Fitzgibbon of Newark, L. C. Russell of Newark, and Hon. Emmett Tompkins of Columbus, that a plea of manslaughter would be entered by their client, Graef, in which the state acquiesced, with the proviso that a final determination should be deferred until 1 o'clock Tuesday afternoon, at which both attorneys for the state and defense could make a statement of what they expected to prove.

Among the witnesses subpoenaed to this trial were Joe Bush and Hugh Hawkins who were brought down to Newark from the reformatory at Mansfield, Tuesday morning, for the purpose of testifying.

Judge Wickham of Delaware county was in the presiding judge of this subdivision, sat upon the bench with Judge Weygant when the Frank Graef murder case was called Tuesday afternoon. The progress of the case however was dictated to by counsel by Judge Weygant.

Prosecutor Phil B. Smythe stated to the court:

"Inasmuch as each of you gentlemen have presided at least one of these murder cases, you must know that the acts of that day and night of July 8th, 1910, which culminated in the lynching of Carl Etherington, were committed by a mob, while this defendant was a captive."

"The state would show, (or offer to show) that while the patrol wagon was passing the Main street corner, at Third street, that the defendant was in a small automobile, and at this time ran his automobile in the path of the patrol wagon, and you gentlemen will remember that the testimony adduced in previous cases would tend to show that the defendant said to the crowd, 'Are you going to let

that s--- live? Go and get him.'"

Prosecutor Smythe also cited witnesses who would testify to remarks of this kind, made by defendant, and that some of them would say that they saw the defendant at the time and place described, and make the remarks attributed but could not distinguish exactly what was said.

Prosecutor Smythe cited witnesses who would testify that the defendant said: "If I wasn't a cripple I would get him; you are a bunch of cowards," and that these remarks were made while an assault was being made upon the jail.

Witnesses were also cited by the prosecutor, who would testify that they saw defendant flourish a revolver and as the crowd to give him a chance and he would shoot him.

The statement of the prosecutor was refuted by Mr. Fitzgibbon by the reading of an affidavit of H. D. Hale, who swore that he was taken in Graef's automobile to the West End, after William Howard was shot, at the request of Mr. C. H. Spencer, who was then business manager of the Advocate. That Graef may have made some foolish remarks, but that it was after Mr. Hale had left the automobile to get into the patrol wagon which had taken Etherington under arrest, to accompany him as a newspaper reporter.

"Other testimony," said Mr. Fitzgibbon, "would show your honors that after several trips to north and east Newark had been taken in Graef's automobile, the machine was taken to various points, and that because of the density of the crowd at the time just before and at the time of the taking of Carl Etherington from the county jail, it was impossible for the defendant to be close enough to influence the course of that mob."

Judge Wickham as presiding judge asked the several witnesses be called to that he and his coadjutor could hear the testimony which was said in the statements of counsel to conflict.

Mrs. Ida Thorpe was the first called and was examined by Mr. Smythe. "I was near the county jail on the evening of July 8th, 1910, and was there between 8 and 10 o'clock. At this time they were battering at the jail door. Saw Frank or 'Flicker' Graef in a little red automobile, and heard him say 'Bring the s--- out and I will shoot him.' Some one said, 'That's whisky talking,' but defendant said, 'I've got the goods,' and 'I've got a revolver.'"

Cross-examined by Mr. Fitzgibbon. "Hear speeches being made near the jail; heard Graef's remark which we in our crowd did not take seriously."

Sanford Henry was identified by the witness as the one who said "That's whisky talking," concerning Graef's remark.

Patrick Haycock was called by the state and examined by Mr. Smythe. "Was at defendant's place of business between 4:30 and 5 o'clock, the afternoon of July 8, 1910. Saw defendant with several others at the jail, but don't remember them talking, but don't remember anything said about the man Etherington or about breaking into the jail by defendant; don't remember ever saving in the presence

Cleveland, Nov. 14.—While pursuing three car thieves, Thomas Madden, 25, a B & O detective, stepped in front of a freight train here today and was instantly killed.

ARCHBISHOPS SAIL FOR THE VATICAN

New York, Nov. 14.—Cardinal designate, Archbishop John M. Farley of New York, and Most Rev. Diomedeo Falconio, apostolic delegate to Washington, sailed today for Rome. A throng of thousands of devoted best wishes and American people, said Archbishop Falconio, "many years and I love and adore them. My heart goes out in thanks for this farewell they are according me."

DIVIDES PULITZER MILLIONS

Will of the Late Publish- er Bequeaths Much to Education

VALET IS GIVEN \$100,000

One Million for School of Journal- ism—Old Employees Remembered.

New York, Nov. 14.—The terms of the will of Joseph Pulitzer, which will be filed for probate today, were made public last night. Its conspicuous features are the ratification of the gift of \$1,000,000 to Columbia University for the establishment of a school of journalism, and also the ratification of an additional million for the same purpose, subject to certain conditions which, if not complied with by Columbia University, before the amount is paid over, will result in the sum going to Harvard University, one-half of it for a school of journalism and one-half for unusual prizes and scholarships as set forth in the will.

In addition to outlining at length the school of journalism plan, the document sets forth a large number of interesting bequests not previously known.

Among them is \$250,000 for a scholarship fund at Columbia University, \$500,000 to the Metropolitan Museum of Art, \$500,000 to the Philharmonic Society of New York, \$100,000 to Mr. Pulitzer's faithful valet, Jabez Dunningham; \$100,000 to be distributed by the executors among his personal secretaries, readers and companions and certain editorial writers employed upon The World; \$50,000 for the erection of a fountain in Central Park, \$25,000 for the erection of a statue of Thomas Jefferson in New York City and some minor bequests.

The capital stock of his two newspapers, the New York World and the St. Louis Post-Dispatch, are left in trust for his sons and their male issue, during the lives of the two younger sons. A codicil attached to the will in 1909, divides these interests as follows: To Herbert, the youngest son, six-tenths; to Ralph, two-tenths, to Joseph one-tenth, and the remainder to be held for the benefit of the principal editors and managers of the newspapers whom the trustees may regard as the most deserving and valuable from time to time and upon the expiration of the trust estate that one-tenth of the stock of each of the companies shall be sold to one or more of the principal editors or managers of each of said newspapers whom the trustees may consider most deserving in point of ability and integrity.

The use of the income from the holdings is restricted to nominal sums in the cases of Herbert and Joseph, until they reach the age of 30, after which they are entitled to the whole unrestricted income of their respective shares. No restriction is placed upon the income which Ralph may receive from his two-tenths interest. The excess earnings over Herbert's and Joseph's limitations will go to Columbia University, the Metropolitan Museum of Art and the Philharmonic society, subject to certain conditions.

The trustees of the stock of the two newspapers are recommended as George L. Rives, president of the board of trustees of Columbia University, Charles E. Hughes, justice of the United States supreme court, who has expressed his intention not to accept, owing to public duties; Harrington Putnam, justice of the supreme court of New York state, to take the place of Justice Hughes in case the latter resigns; Frederick N. Judson of St. Louis, and J. Angus Shaw of New York. Mr. Judson is to serve only until Joseph Pulitzer arrives at the age of 30, when he is to take Mr. Judson's place and Mr. Shaw is to serve only until Herbert Pulitzer, now 17 years old, shall reach the age of 21, when he will take Mr. Shaw's place.

The failure of the testator to name Ralph Pulitzer, the oldest son, as one of the trustees, was made the subject of a statement by Ralph Pulitzer last night, in which he said that his father lived and died under the conviction that he had designated him as one of the executors and trustees. He quoted a letter from William B. Hornblower, counsel, who drafted the codicil, in which it was declared to be an inadvertent omission that Ralph Pulitzer was not named. Mr. Hornblower stated that in preparing a recent new draft of the will he had inserted Ralph's name, in accordance with his father's instructions, and the tentative draft was in possession of Mr. Pulitzer at the time of his sudden death last

SUPREME COURT GRANTS DIEGEL PERMISSION TO FILE EXCEPTIONS BILL

Columbus, O., Nov. 14.—The supreme court today granted to Rodney J. Diegel, former sergeant-at-arms of the state senate, leave to file a bill of exceptions from the ruling of the common pleas and circuit courts which found him guilty of having aided and abetted in the legislative bribery scandal and sentenced him to serve three years in the state penitentiary.

This means that Diegel will not have to go to the pen until the supreme court has examined carefully all the evidence presented to the courts and considers any new leads the attorneys for the defense may wish to make.

Sen. L. R. Andrews jointly indicted with Diegel, Can Mattern, Diegel's

attorney and Attorney Clarence Laylin for the state, were in court when the decision of the supreme bench was read.

Diegel later appeared and was overjoyed to find that he had been granted another chance for his liberty. If the Diegel case is permitted to take its regular place upon the court docket the case will not be heard for over two years.

It is believed however that the prosecution will attempt to have the case set forward in order to dispose of it before other cases to be heard in the legislative bribery scandal.

Diegel was indicted before the grand jury in the legislative scandal brought to light toward the close of the last session.

NO PARTS OF TOMPKINS BODY HAVE BEEN FOUND

Excitement is still intense as a result of the terrific nitro-glycerine explosion at Utica Monday morning in which Benjamin Tompkins lost his life.

A number of men were put to work by the Marietta Torpedo company early Tuesday morning on the site of the former storage magazine with the hopes that at least a portion of the remains of Tompkins would be found, but up to 10:30 o'clock when the search was called off, no signs of the body were located. A few bits of Tompkins' clothing and underwear were found but no particles of the unfortunate man's body.

Several farmers residing north of Utica, who were making early trips to the village, report that they saw Tompkins on his way to the magazine and that they waived a recognition to him, but further than that no report of seeing him just previous to the explosion. Mr. Cunningham, a brother-in-law of Tompkins, arrived in Utica Tuesday morning. He is a resident of Crooksville and says that he felt the shock resulting from the explosion. Crooksville is distant 55 miles from Utica.

Notwithstanding the several reports

to the contrary no trace of Tompkins' remains have been found and it is probable that no trace of his remains will ever be located.

At a meeting of physicians at the feed barn at 3 o'clock Monday afternoon it was decided that the meat and pieces of flesh and bone were that of the horses which Tompkins drove. Portions of the wagon and debris from the explosion are constantly being picked up by visitors and nearby residents.

The Marietta Torpedo company only last week lost a man in the southern portion of the state by an explosion similar to that at Utica.

SENATOR POMERENE AT CONFERENCE

Canton, Nov. 14.—Atlee Pomerene left Canton this morning for Columbus to participate in the conference of Ohio congressmen. They will discuss the advisability of asking Governor Harmon to call a special session of the legislature. The germanium for redistributing Ohio will also come up.

High Cost of Living In President's Message

Washington, Nov. 14.—President Taft is planning to take up the high cost of living in a special message to congress when he transmits the report of the tariff board to that body. Mr. Taft will also renew his recommendation for a bureau's post. The tariff board will show that much of the high cost of living is due to the middle man rather than to the tariff imposed.

GERMANY CLAIMS
PRIVILEGES LIKE CANADA

Washington, Nov. 14.—The German embassy today in a note to the state department formally claimed under the favored nation clause in their treaty, the same privilege claimed with Canada over pulp and paper for free entry into America. The German ambassador will take the matter up with the department.

GRANGE IN SESSION AT COLUMBUS

State Master Laylin De- livered Opening Ad- dress to Organization

ADVOCATES FEDERAL AID

And Bond Issue for Good Roads ---Glories in Defeat of Reciprocity.

Columbus, Nov. 14.—Deploring the small per cent of farmers in the Ohio legislature, lauding the management of the Ohio state fair in eliminating passes, boosting the Ohio-Columbus centennial, glorying in the defeat of the Canadian reciprocity treaty and advocating federal aid and an amendment to the Ohio constitution to make possible the issuance of bonds for good roads, T. C. Laylin of Norwalk, master of the Ohio State Grange, yesterday delivered the address which opened the annual session of his organization.

Coincident with the meeting of the state grange, sessions were held by the American Society of Agronomy at Ohio Union, Ohio State University, and the American Association of Farmers' Institute Workers at the Southern Hotel. In the evening the grange exemplified the fifth degree to 80 candidates at the Knights of Columbus Hall, Sixth and State streets, and a joint session of agronomy specialists and the Society for the Promotion of Agricultural Science was held at Ohio Union.

Institute workers held an evening session at the Southern Hotel. They heard the address of their president, A. M. Soule of Atlanta, Ga., and discussed a group of five questions pertaining to methods of instruction, number of lectures necessary to make an institute a success and to the advisability of selecting a common subject for discussion throughout the United States and Canada.

Master Laylin of the Ohio State Grange yesterday made the assertion that the organization had not been so prosperous since 1876.

"The last has been a banner year in point of growth," he said. "Fifty-six granges have been added to our roster, with a charter membership of 4000, and a total gain of 7000 members."

"Favoritism and abuse of privileges received a setback and once more Ohio has set the pace. Ohio patrons will never again be satisfied with any less than a passless and fairless fair."

"At present there are fewer men there than are interested in agriculture than ever before, in fact, there is not a farmer in the Ohio senate and only a few in the house, and it is not within the bounds of reason to expect that the efforts of our committee should meet with that consideration which we desire."

"The struggle of the grange to prevent the ratification of the Canadian pact is now a matter of history. We do not mourn its demise. We opposed it because it was unjust and unfair to the American farmer. We did our best and failed. Canada was victorious and we are satisfied."

An extended parcels post, federal aid for good roads, conservation of national resources, direct election of United States senators and the enactment of laws to encourage the teaching of scientific agriculture were among the things for which the grange stands, according to Master Laylin.

At least two receptions will mark the conventions of farmers and farm educators this week. The Ohio State University will give one Thursday evening in the armory, in compliment to delegates to all agricultural organizations which meet in Columbus this week.

The State Grange will give a reception tomorrow evening at the Chamber of Commerce for delegates to the sessions of the National Grange, which will convene tomorrow morning at the A. I. U. temple. Governor Harmon and Mayor Marshall will talk and greetings and responses will issue from the lips of state and national officials. A triple

STUDENTS IN COLLEGES HAVE FAIR AVERAGE

Minneapolis, Minn., Nov. 14.—In an address delivered at the chapel of the University of Minnesota today, Dr. Harry S. Warner, president of the National Collegiate Prohibition League, assailed the drinking of alcoholic beverages by students in American universities. Half the students of American universities drink alcoholic liquors, he declared, and whereas 100 years ago students drank per capita six gallons of beer a year, at present they drink as much as 22 gallons each.

OBITUARY

MRS. LAURA J. PROTZMAN.

Miss Mary L. Miller left Monday evening to attend the funeral of her aunt, Mrs. Laura J. Protzman, who died in Baltimore Monday morning after a long illness. Mrs. Protzman will be pleasantly remembered by many Newark friends, having visited with the family of Mrs. Abram Miller in West Church street where she met a number of Newark people, a great many of whom, however, have preceded her to that land of eternal rest. Miss Sallie M. Protzman, a daughter of the deceased, recently visited the Miller family and her many friends here will deeply sympathize with her in the great loss she has sustained. Mrs. Protzman leaves one son, William Clark Protzman of Baltimore, Md., two daughters, Miss Sallie Protzman, chairman of the Literature Committee of the Lutheran Church of America, and Mrs. Nellie Fitch Edmunds, of Chambersburg, Pa., who was formerly Miss Nellie Protzman.

INDIGESTION AND STOMACH MISERY ENDED

Nothing will remain undigested or sour on your stomach if you will take a little Diapiesin occasionally. This powerful digestive and antacid, though as harmless and pleasant as candy, will digest and prepare for assimilation into the blood all the food you can eat.

Eat what your stomach craves, without the slightest fear of indigestion or that you will be bothered with sour risings, Belching, Gas on Stomach, Heartburn, Headaches from stomach, Nausea, Bad Breath, Water Brash or a feeling like you had swallowed a lump of lead, or other disagreeable miseries. Should you be suffering now from any stomach disorder you can get relief within five minutes.

If you will get from your pharmacist a 50-cent case of Diapiesin you could always go to the table with a hearty appetite, and your meals would taste good, because you would know there would be no indigestion or Sleepless nights or Headache or Stomach misery all the next day; and, besides, you would not need laxatives or liver pills to keep your stomach and bowels clean and fresh.

Pape's Diapiesin can be obtained from your druggist, and contains more than sufficient to thoroughly cure the worst case of Indigestion or Diapiesin. There is nothing better for Gas on the Stomach or sour odors from the stomach or to cure a Stomach Headache.

You couldn't keep a handier or more useful article in the house.

'OH THIS AWFUL ITCHING'

What Eczema Sufferers Say — They Can Now Get Relief.

Try This Remedy At Our Risk.

It is bad enough to have the disfiguring eruption of eczema and similar skin troubles, but the terrible itching and burning makes it ten times worse.

At last we have a remedy for skin diseases that we can recommend. We even give back your money if this new remedy of ours, Saxon Salve, does not satisfy you perfectly.

Saxon Salve is doubly valuable to all who have eczema or any skin disease, because it both allays the itching and burning in a few moments and exerts a powerful curative effect at the same time.

It combines soothing and healing properties in a form that is absorbed by the skin, making its curative effect thorough and not merely on the surface. If you have any skin trouble you should use Saxon Salve. It is equally good for children and adults. F. D. Hall, Druggist, Newark, O.

PLANS RECEIVED FOR B. & O. DEPOT

Zanesville, Nov. 14.—Plans for the proposed enlargement and remodeling of the B. & O. passenger station were received here today and when the improvement is carried out it will prove to be beneficial to the patrons of the road.

By the proposed arrangement additional room will be secured for the proposed rooms and baggage rooms. It is planned to move the ticket office from its present location across the hall to where the toilet rooms are now situated and that space will be devoted to waiting room. The present waiting rooms will be turned into a general waiting room, with the exception of a portion of the present waiting room, which will be cut off for exclusive separate rooms for men and women. These rooms will be at the east end of the present women's waiting room.

The baggage rooms will be enlarged and will be supplied with large doors at both the east and west ends, so that baggage can be received and delivered at the street side of the building, instead of at only one door as at present.

ECZEMA REMEDY ALSO WASHES PIMPLES AWAY

No remedy that I have ever sold for Eczema, Psoriasis, and all other diseases of the skin has given more thorough satisfaction than the D. D. Prescription for Eczema.

A 25c trial bottle can be secured at once.

My patrons find that D. D. D. not only gives instant relief to the itching, burning skin, quickly driving out all the disease germs, but it is also the most delightful wash for the complexion they ever used. Absolutely harmless and pleasant to use, D. D. D. cleanses the skin of all minor impurities, such as rashes and pimples, over night, and leaves the skin clear and smooth as that of a child.

It is now generally known that there is nothing that can equal D. D. D. as a household remedy for all skin troubles.

I myself, am so fully convinced of the merits of this wonderful remedy that I will charge you nothing if the first full size bottle of D. D. D. does not make good every claim.

Better drop in and talk it over with me anyhow.

Effective Home Remedy for Tuberculosis

It is a serious matter when the lungs are affected. A trip away or to a sanatorium is not only tremendously expensive, but it involves separation from home and friends. Some are benefited, but none can safely return. Eckman's Alternative is effective—no leaving home necessary.

For example: 231 S. Atlantic Ave., Haddonfield, N. J. "Gentlemen: In the fall of 1905 I contracted a very severe cold, which settled on my lungs. At last I began to cough and spit blood. I was in a very bad way, and I went to California immediately. At this time I was advised to take Eckman's Alternative. I stayed at home and commenced taking it the first week in October. I began to improve, and the next regular coughing, having gained 25 pounds, fully restored to health. It is now five years since my cure has been effected, and I cannot praise Eckman's Alternative too highly. I have recommended it with excellent results."

(Signed) N. N. TATEM.

Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in unbuilding the system. Does not contain poisons, opiates or habit-forming drugs. Ask for booklet of cured cases and write to Eckman Laboratory, Philadelphia, Pa., for more evidence. For sale by all leading druggists.

What He Wanted to Know.

He—At last, Miss Millie, I can say something that I have been burning to ask you for some time.

She—What is it? What is it?

He—Has your cousin Erma enough money to marry on?—Uik.

Entirely Different.

"They tell me your son is studying music."

"Yes; he is taking lessons."

"What is he going to be?"

"He is going to be a fiddler, but at first he had hopes of making a violinist out of him."

Boy Pianist.

A writer in the Pacific Coast Musical Review has this to say concerning Pepito Arriola, the Spanish boy pianist, who will give a recital at the Auditorium theatre on Thursday, Nov. 16, one night only: "Anyone who has studied musical history will remember the wonderfully romantic character of Mozart's early triumphs. At those times an artist was especially severely criticised as the masters that lived in those times did not look easily on while one interpreted their compositions. As great a wonder as Mozart is Pepito Arriola."

COURT NEWS

Common Pleas Court.

In the case of the State of Ohio vs. Perry Davis, indicted for murder in the first degree in the lynching of Carl Etherington, the court fixed the bond for the appearance of the defendant on the trial at \$10,000.

Mary J. Lingafelter vs. C. C. Beckman, leave given defendant to withdraw his motion for the appointment of a receiver.

Divorce Petitions.

Ida M. Hauck has commenced suit in the probate court against Harry C. Hauck for divorce and alimony. The parties were married on June 28, 1906. One child, Floyd Hauck, aged about five years, was born of the marriage. For cause of action, the plaintiff charges defendant with extreme cruelty. Frank A. Bolton, attorney for the plaintiff.

Filed Demurrer.

To amend petitions filed by the City Solicitor, in the cases of the City of Newark against the banks, to compel the banks to pay interest on the water works fund on deposit with the banks, the banks through Kibler & Kibler, their attorneys, filed demurrers and the matter was cited by counsel to be heard by the court on next Saturday. Judge Seward already sustained demurrers to the original petitions holding that the city had no legal claim against the

banks for interest on the money deposited and it is claimed by the attorneys for the bank that the amended petition is likewise faulty in not stating a cause of action.

Cruelty to Animals.

Frank Anareno was arrested by Humane Officer Henry Wylarch on the charge of cruelty to animals in over-driving, over loading, torturing and depriving three horses of necessary sustenance. The defendant entered a plea of guilty in Justice Holton's court and was assessed a small fine and ordered to pay the costs. John Anareno was arrested on the same charge, and he will have a hearing Wednesday morning.

Filed Divorce Petition.

Fontaine A. Johnson, the colored garbage man, has instituted an action for divorce Tuesday in the Probate court, against his wife Vidella Johnson, alleging among other causes gross neglect of duty and extreme cruelty. Kibler & Kibler brought the action for the plaintiff.

SEEKS DAMAGES FOR ALIENATION OF WIFE'S AFFECTIONS

Andy Cernea has commenced suit in Common Pleas court against George Farsae and August Sinsco for \$5,000 damages for alleged alienation of the affections of his wife. He says that defendants enticed his wife away from

him to a separate residence in the city, where they have detained her against the wishes of the plaintiff. Smythe & Smythe, attorneys for the plaintiff.

NEVER FAILS TO CURE ECZEMA

Now the people of Newark have an opportunity to get rid of eczema or any other skin trouble and do it quickly.

Evans' Drug Store is selling Zu-Ke for only 50 cents a box. Zu-Ke is an old Indian formula used for centuries among several Indian tribes.

Sixty years ago the formula was purchased from an Indian medicine man and since that time has cured hundreds of cases of eczema considered hopeless.

Zu-Ke is now being sold by pharmacist for the first time for eczema, salt rheum, pimples, scabies, itch, piles, ring-worm, red skin, burns, scalds, rash and all skin troubles. Genesee Laboratories, Rochester, N. Y.

CHANGE IN WOMAN'S LIFE

Made Safe by Lydia E. Pinkham's
Vegetable Compound.

Graniteville, Vt.—"I was passing through the Change of Life and suffered from nervousness and other annoying symptoms, and I can truly say that Lydia E. Pinkham's Vegetable Compound has proved worth mountains of gold to me, as it restored my health and strength. I never forget to tell my friends what Lydia E. Pinkham's Vegetable Compound has done for me during this trying period. Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my trouble public so you may publish this letter."—Mrs. CHAS. BARCLAY, R.F.D., Graniteville, Vt.

No other medicine for woman's ills has received such wide-spread and unqualified endorsement. No other medicine we know of has such a record of cures as has Lydia E. Pinkham's Vegetable Compound.

For more than 30 years it has been curing woman's ills such as inflammation, ulceration, fibroid tumors, irregularities, periodic pains and nervous prostration, and it is unequalled for carrying women safely through the period of change of life.

Mrs. Pinkham, at Lynn, Mass., invites all sick women to write her for advice. Her advice is free, and always helpful.

DIRECTOR OF SERVICE

The new Director of Public Service
will be Mr. James McCarthy, present
clerk of the City Council and clerk to
the Director of Public Safety. This
announcement was made on Tuesday
by Mayor-elect Swartz.
Mr. McCarthy is the son of John
McCarthy of the Wehrle plant and
lives at 15 Bower avenue. He has
lived in Newark for thirteen years.
Receiving his early education at Iron-
ton he entered the St. Francis de Sales
school upon his arrival in Newark and
completed the course of study with
honor in 1903.

His first position was with Mr. W.
D. Sinkey in West Newark, but shortly
afterward he entered the B. and O.
railway service and for six years was
in the transportation department of
the local offices. In April, 1909, he be-
came clerk of the Newark City Coun-
cil. In that position he came in touch
with the public and his work has been
creditable in every way. Accurate,
energetic, alert, courteous, these
words all apply to James McCarthy.
His record is clean. His training fits
him to quickly grasp the important
work that awaits him.

Mr. McCarthy said today that it
will be his sole aim to conduct the
office upon business lines, getting for
the city the best possible service at a
fair price. Mr. McCarthy is a young
man but he is ambitious and he pos-
sesses the characteristics that spell
Success.

DIRECTOR OF SAFETY.

Mayor-elect F. M. Swartz has just
announced the appointment of Mr.
Wayne Collier for Director of Public
Safety. Mr. Collier will succeed Mr.
P. S. Scott at the same time Mr.
Swartz takes his oath January 1st.

The appointment of Mr. Collier is
exceptionally strong as he is recog-
nized as one of Newark's brightest
and most energetic young men, a man
of strength of character, education
and business ability.

Mr. Collier taught school before en-
tering Mt. Union college. Then he

attended Ohio State University and
was admitted to the practice of law
in June, 1902, since which date he has
lived in Newark. He is the son of
Captain David Collier of Lakeville,
Ohio, who for two terms was a mem-
ber of the Ohio legislature.

Mr. Collier has been successful in
practicing law here and has also been
successful in business. Six years ago
with Messrs. W. N. Fulton and L. P.
Schaus, Mr. Collier bought a coal mine
in Muskingum county and has since
operated the property with success.
Mr. Collier is a warm personal friend
of Mayor Swartz. The mayor-elect has
absolute confidence in Mr. Collier and
will place the office in his hands with
no string tied to it. Mr. Collier with
a keen appreciation of the responsi-
bility of the office and with the sole
purpose of conducting it in the inter-
est of Greater Newark will accept the
appointment.

Cemetery Superintendent.

Mr. Swartz could not have done bet-
ter in appointing a superintendent of
Cedar Hill cemetery than he did when
he named Andrew J. Crilly.

Mr. Crilly needs no introduction to
the Newark public. His record as
sheriff, as justice of the peace, and
mayor is well known and his good
work as the manager of Cedar Hill is
also known. Mr. Crilly has conducted
the business affairs of Cedar Hill in
an admirable way and there is no
question that he is the right man in
the right place.

**FOR COLDS, COUP
AND SORE THROAT**

Mothers Should Try this Simple Sen-
sible Treatment for Colds,
Croup, Etc.

This old method of dosing the stom-
ach to cure colds and croup is
wrong and harmful.

When your child is cross, fever-
ish, and full of cold, apply a small
quantity of Nostriola Balm to the
nostrils and on chest and throat—
also under arm-pits and on soles of
feet. This simple, harmless, common
sense treatment will clear the head
and open the air passages almost in-
stantly, stop sneezing, running of the
nose, and quickly change a half-sick
fretful child into a happy, playful
one.

Many mothers in this vicinity are
now using the Nostriola Treatment
and nothing else to keep the children
free from colds and croup.

You won't believe the good results
this simple treatment will bring un-
til you make the test. Get a 25c tube

**BUSINESS MEN
PLEDGE SUPPORT
TO NEW MAYOR**

MEETING TO ORGANIZE WILL BE
HELD NEXT FRIDAY
EVENING.

Mayor Swartz Says He Stands for
Law Enforcement and for Big-
ger Greater Newark.

About thirty well known business
men met with Mayor-elect F. M.
Swartz in the Board of Trade rooms
Monday afternoon for the purpose of
getting in touch with the new mayor,
learning his views on matters of in-
terest and suggesting an organiza-
tion of the business interests of the
city to "back him up."

Co. W. C. Wells was made chair-
man of the meeting and L. B. Rich-
ards, secretary.

George B. Sprague, one of the men
who suggested calling in a few of
the business men to meet the mayor,
first explained the object of the gather-
ing and stated that now that the elec-
tion is over there are no Republicans
or Democrats or Socialists so far as
the new mayor is concerned but that
all good citizens are Swartz men. In
other words, all citizens should for-
get party and party lines now and
pull together for a bigger, a greater
Newark. He suggested the idea of
forming a permanent organization
which shall be back of and assist the
new mayor in the conduct of his of-
fice. He said that the people of
Newark are in favor of enforcing the
laws of the city, state and nation
and he was pleased to know that Mr.
Swartz had staid upon the night of
his nomination that he stood for law
enforcement and for the protection
of Newark's interests.

Ex-Senator William E. Miller fol-
lowed along the same line of Mr.
Sprague's remarks and pledged his
loyal support to the new administra-
tion in the proper conduct of its af-
fairs.

The President of the Board of
Trade, C. H. Spencer, was asked to
express his opinion. Mr. Spencer
said that the work of the Board of
Trade during the past few years had
certainly demonstrated the fact that
the members of that organization
and the organization itself are al-
ways ready to promote the city's in-
terests in every direction. He said
that the Board of Trade had taken
no part in politics and represented
no faction and no section. It rep-
resented the whole city and would
gladly support any movement whose
aim was the improvement or devel-
opment of Newark. He called at-
tention to the importance of the ap-
pointment of the mayor to make and
urged the selection of men of the
highest type for each position.

Mr. F. S. Neighbor, manager of
the American Tribune and a director
of the Board of Trade, spoke
briefly in support of the movement
to support the mayor in his new
work.

Mr. E. T. Rugg endorsed the move-
ment to organize to support the mayor
and emphasized in his remarks
the necessity of making a good start
by naming men of the right calibre
for the several appointments that are
to be made by the mayor.

Mr. James Linehan in endorsing
the proposition said that he had
grown tired of seeing the city gov-
ernment defamed and welcomed the
ideas suggested by other speakers.
Remarks along the same line were
made by Messrs. John H. Swisher
and William H. Smith.

Upon motion a committee consist-
ing of George B. Sprague, Wm. H.
Smith, F. S. Neighbor, E. T. Rugg,
and Edward Kibler was appointed to
draft a line of action and outline a
plan of permanent organization to be
submitted at a meeting next Friday
evening at 7:30 o'clock at a place to
be announced later. All business
men are invited to be present.

Before adjourning Mayor Swartz
was asked to speak. The new mayor
said that it gave him much pleas-
ure and satisfaction to hear the busi-
ness men speak as they had and the
promise of support was very encour-
aging. He said that he would take
his oath of office the first day of
January and that oath pledged him
to enforce the laws. Mr. Swartz
declared that he would enforce the laws
and further that his whole adminis-
tration's aim would be to work for
Greater Newark—for the interests
of the whole city.

Naturally Excited.

"Say," asked the man who was a
stranger in New York, "what's the
matter with that man in the next
room? He's been making a terrible
racket for the last hour."

"Oh," replied the bell-hop, "he's
just heard of a new table d'hôte place
where he's never at."

The women are generally in the
majority at a summer resort; in
fact, in a hopeless majority.

THE WEATHER MAN.

The weather prophet, in his lair, consults the skies and feels the
air, and samples highs and lows, and then predicts some freezing
snaps, or thaws, or thunderbolts, perhaps, or novelties in snows. And
ninety-nine times out of ten the prophecies that leave his den are ac-
curate and fair; and people take them as they come, and never hand
the seer a plum, or posy rich and rare. We do not call him up and
say that he's a climber in his way, when his forecasts come true; but
when he fails to ring the bell we greet him with a frantic yell and
raise a howl-dee. And so the weather prophet sits, and makes his
maps and throws his fits, and wails a dirge-like song; his triumphs
never seem to count, but he sits up a vast amount of anger when
he's wrong. Oh, let's adopt a better plan, and cease to roast the
weather man, and camp upon his trail! Let's praise him for the
hits he makes, and overlook his small mistakes, and boost his rain
and hail!

**CENSUS BUREAU'S
NEWARK SUMMARY
OF MANUFACTURES**

Issued by the Department of Com-
merce and Labor at Wash-
ington—Interesting Statistics.

Washington, Nov. 14.—A prelim-
inary statement of the general re-
sults of the thirteenth United States
census of manufactures of the city
of Newark, O., was issued yesterday
by Census Director Durand. It con-
tains a summary comparing the fig-
ures for 1904 and 1909, by city to-
tals, prepared under the direction of
Wm. M. Stewart, chief statistician of
manufactures, bureau of the census.
The figures are subject to such re-
vision as may be necessary after a
further examination of the original
reports.

The summary shows percentages
of increase as follows: 135 per cent
in the capital invested; 40 per cent
in the value of products; 84 per cent
in the cost of materials used; 22 per
cent in the value added by manu-
facture; 35 per cent in the number
of salaried officials and clerks; and
8 per cent in the average number of
wage earners.

There was a decrease of 8 per cent
in the number of establishments and
3 per cent in the salaries and wages.
There were 72 establishments in
1909, as compared with 78 in 1904, a
decrease of 6, or 8 per cent.

The value of products in 1909 was
\$7,551,000, and \$5,613,000 in 1904,
an increase of \$2,238,000, or 40 per
cent.

The value of products represents
their selling value or price at the
plants as actually turned out by the
factories during the census year and
does not necessarily have any rela-
tion to the amount of sales for that
year. The values under this head
also include the amount received for
work done on materials furnished by
others.

Further details can be drawn from
the tabular summary which follows:

Views on Feeding of Children.
"A child's disposition is de-
pendent," says Miss Helen
Smith, authority on domestic
science, "more upon the food it
eats than upon rules of conduct.
The mother who wishes her
child to have a sunny disposition
must exercise great care in the
quantity, quality and variety of
the food. Show me a surly boy
and I will show you one badly
fed." This agrees with the dictum
of Bishop Fallows, "You
can make a boy good or bad
according to the way you feed
him." After weaning, a child
should be fed a year on milk and
bananas, milk and unpolished
rice with raisins only. No table
drinks, flesh or condiments
should be allowed. After the
second year bananas and cream
with a glass of prepared butter-
milk sweetened with maple sug-
ar or molasses for breakfast,
soaked and simmered entire
wheat grain, with a few slices of
bread, dried, not less than twenty-
four hours old, or rice with
cream, for dinner, and prunes
or figs or dates for supper. In-
stead of the commercial candy
two to four ounces of maple
sugar should be allowed.

Where He Came In.

He gazed tenderly into her eyes as
she spoke.
"Life," she murmured dreamily, "is
after all, nothing but a romance in
which we are the characters, moving

of our being directs."
"And in the novel of your life," said
he, tenderly, "where do I come in?"
"You?" she answered with a smile.

A L'BERAL OFFER

**We Guarantee to Relieve Dyspepsia.
If We Fail the Medicine
Costs Nothing.**

To unquestionably prove to the
public that indigestion and dyspepsia
can be permanently relieved and that
Rexall Dyspepsia Tablets will bring
about this result, we will furnish the
medicine absolutely free if it fails to
give satisfaction to any one using it.
The remarkable success of Rexall
Dyspepsia Tablets is due to the high
degree of scientific skill used in de-
vising their formula as well as to the
care exercised in their manufacture,
whereby the well known properties
of Bismuth-Subnitrate and Pepsin
have been combined with Carmina-
tives and other agents.

Bismuth-Subnitrate and Pepsin
are constantly employed and recog-
nized by the entire medical profes-
sion as invaluable in the treatment
of indigestion and dyspepsia.
The pepsin used in Rexall Dyspepsia
Tablets is carefully prepared so as
to develop its greatest efficiency.
Pepsin supplies to the digestive ap-
paratus one of the most important
elements of the digestive fluid.
Without it the digestion and assimila-
tion of food are impossible.
The Carminatives possess prop-
erties which aid in relieving the dis-
turbances and pain caused by indig-
ested food. This combination of
these ingredients makes a remedy in-
valuable for the complete relief of
indigestion and dyspepsia.

We are so certain of this that we
urge you to try Rexall Dyspepsia
Tablets on our own personal guaran-
tee. Three sizes, 25 cents, 50 cents
and \$1.00. Remember, you can ob-
tain Rexall Remedies only at our

**HARVESTER CO.
IS FINED \$50,000**

Jefferson, Mo., Nov. 14.—The su-
preme court of the state of Missouri
today issued a writ of ouster against
the International Harvester company,
and assessed a fine of \$50,000 for vio-
lation of the Sherman anti-trust law.
The Harvester company was found
guilty in 1910 of violating the Mis-
souri anti-trust laws which are more
drastic than the Sherman law by a
commissioner of the state. The case
was submitted to the supreme court
for affirmation last April and today's
decision tends to prevent all compa-
nies making up the International Har-
vester company from doing business
in the state. The court found that the
International company practically had
a monopoly on the sale of binders in
many states.

The latest discovery in domestic
science is the remarkable new system
of cooking brought out by M. Nicholas
Boyer, chef of the celebrated Brooks
club of London, England, known as
"Cooking in Paper Bags." It is claimed
that the system is labor saving, doing
away with the washing of pots and
pans; that it keeps the smell of
cooking from pervading the house;
that it makes every dish more savory
and nutritious than is possible with
the pot-and-pan system of cooking;
that it is economical, the food weigh-
ing practically the same when drawn
from, as when put in, the oven; that
it makes possible hygienic cooking, no
germ-laden cooking utensils being
employed, and that it means quicker
cooking, lower fuel bills as a conse-
quence, and, because of better cooking,
better health.

The Chicago Daily News is exploit-
ing the system in great detail and an-
nounces a series of descriptive articles
and practical recipes, by the new sys-
tem, to run every day for a period of
two months. The subject is, of course,
of the most practical interest to every
household. Our women leaders can

stands.

The Art Embroidery club will be entertained on Wednesday afternoon of this week at the home of Mrs. Henry Rinehart, 437 Maple avenue.

Mr. Perry Bonham of Leroy street was pleasantly surprised Wednesday evening by a number of relatives and friends who came to celebrate his birthday anniversary. The time was spent with music and games after which a delicious luncheon was served. All departed wishing Mr. Bonham many more happy birthday anniversaries.

Those present were: Mr. and Mrs. Perry Bonham and children, Mr. and Mrs. Preston Snelling, Mr. and Mrs. Norris Snelling and son Charles; Mrs. Eliza Bonham, Mrs. Edward Bonham.

and daughter, Mrs. Etnier, Mr. and Mrs. Joseph Peiffer and little daughter, Mr. and Mrs. J. A. Snelling, Mrs. Schrock, Thelma Snelling, and Raymond McPeck.

The Monday Talks met yesterday afternoon in the trustees room of the Memorial building and the following program was on the calendar:

Myths and Stories from Tragedies—Mrs. Sweet.
Origin and Development of Greek Comedy—Mrs. C. W. Montgomery.
The Coronation—Mrs. Cosgrove.
Literature: The Clouds—Aristophanes—the Wasps—Aristophanes.

The Newark Masonic Social club will dance this evening at Assembly Hall. This is the second of the series of winter dances.

Miss Sue Jackson of West Virginia was honored on Monday afternoon by Miss Anna Priest, who entertained at her home in North Fifth street for her guest with a thimble party. Following

HEART AND HOME TALKS

BY BARBARA BOYD

A Social for Charitable Purposes.

MEMBERS of churches, hospitals and charitable associations of various kinds are busy now planning affairs to raise money. If something big is desired, a carnival of nations, or folk-lore songs and dances afford an entertainment, impressive, instructive and enjoyable. But if a Sunday School class or a small club wants to give something less pretentious, a Seven Cent Social is a lot of fun, and withal raises quite a welcome sum of money. And for that matter, it can be a Nine Cent or a Thirteen Cent Social or any amount desired. Seven, however, is considered a magical number, and so seems quite appropriate.

If the affair is for a church, some things are not permissible that would perhaps be allowable, if there were no religious flavor to it. But what to have and what not to have, those in charge can of course decide. The idea is that everything shall be priced at seven cents, if that is the amount decided upon.

If admission is charged, this shall be seven cents. If there is a supper, each course can be seven cents; or if the circle is very congenial, there can be stand-up refreshments or a sit-down supper, seven cents being charged for a chair. This makes quite a lot of fun, as there is much good-natured jibing back and forth between those who stand and those who sit. There can be seven cent bargains, all tied up, most attractively, too, so that they look very tempting; but nevertheless, so that the purchaser cannot tell what he is getting. There might be little fortunes sold for seven cents, telling what the coming year has in store, what the life partner will be like and other such valuable information. These can be grouped under various headings, and the probability is that the one thirsting for knowledge of this sort will buy one of each kind.

There could be a post-office with letters at seven cents each and an express office with packages at seven cents.

Articles really worth more than seven cents could be priced at seven cents for each pair; thus a pair of slippers could be seven cents for each slipper, a glass of jelly, seven cents for the jelly, seven cents for the glass, seven cents for the cover. But it is better to have inexpensive things as a rule, and keep the cost at seven cents. A few at a combination price would create some fun, but too many would spoil the idea of its being a seven cent social.

Many other things to make the affair interesting and profitable will crop up when the workers get together and talk it over. One idea will suggest another; and before the plans are completed, the affair will have developed into a most interesting and enjoyable entertainment. And when it is over, there will be a gratifyingly large sum for the treasury of whatever object it has been undertaken for.

Barbara Boyd.

Sensible Women Know Foundation of Health

As health talks to women become more general, the mass of women are beginning to realize that the cure for many ailments is not in the hands of a doctor, but in the hands of a sensible woman. The foundation of health is not in the hands of a doctor, but in the hands of a sensible woman. The foundation of health is not in the hands of a doctor, but in the hands of a sensible woman.

The most important thing that a woman can do for herself and about which she is often most neglectful, is to watch the condition of her stomach and bowels. The weary eyes, the bad breath, the frequent headaches, the pimples, the general air of lassitude is nine times out of ten the result of constipation or indigestion, or both. Many simple remedies can be obtained, but the best in the estimation of most women is Dr. Caldwell's Syrup Pepsin. It is mild, pleasant to the taste and exactly suited to her needs. It is far

superior to salts, cathartic pills, waters, etc., which are entirely too violent. Women should see to it that they have at least one movement of the bowels each day, and when showing any tendency to constipation, should take Dr. Caldwell's Syrup Pepsin in the small dose prescribed. A brief use of it will so train the stomach and bowels muscles that all forms of medicine can be dispensed with. These opinions are voiced by thousands of women, after personal experience, among them Mrs. Mary J. Robinson, 1229 Washington St., Sandusky, Ohio, and Mary Moran, Salem, Ohio.

Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle (family size), can have a sample bottle sent to the home free of charge by simply addressing Dr. B. Caldwell, 405 Washington St., Monticello, N.Y. Your name and address on a postal card will do.

THE FASHIONABLE GIRL OF TODAY.

To be without at least one handsome coat frill today, one is quite out of fashion. Scarcely a well-dressed woman is to be seen without a handsome accessory of this kind accompanying her tailored suit for afternoon wear. Young girls are wearing large, queer-shaped hats with lace caps turned inside the crown as an accompaniment of these coat frills. The pictured model is of black velvet, with a crown trimming of ecru lace and red ostrich plume posed alight at the back of the crown, over the base of which is turned the back brim. The little inside cap is of gold fillet.

the merry hours of sewing, a guessing contest was held for which Miss Mary Pollett received the souvenir. An appetizing luncheon of two courses was served the following Miss Jackson, Miss Anna Sprague, Miss Scott, Helen Blood, Ruth Wintermute, Mary Maholm, Mary Pollett and Louise Elliott.

The L. C. B. A. will hold a social meeting Wednesday evening at the home of Mrs. John McCarthy in Bowers avenue.

A birthday anniversary was given in honor of Herman Wolf. Those present were: Misses Mae McIntosh, Mary Jones, Ethel Haynes, Marie Shaller, Helen Hillier, Adria Harrison, Minnie Henry, Mary Walker, Edith Haynes, June Duerr, Geo. Wallace W. Mastellar, Henry S. Stout, Harvey C. Williams, J. Stewart, John E. Long were initiated into Sigma Chi Saturday evening Nov. 4. Those present at the initiation were: C. C. Hills of Columbus, Robert T. Baehle of Canton, Wm. P. Huffman of Dayton, and Harry E. Thurston and Oscar A. Stevens, who are studying law at Ohio State.

A Pint of Unequaled Cough Syrup for 50c

The Quickest, Surest Cough Remedy You Ever Used, or Money Refunded. Stops Even Whooping Cough Quickly.

You may not need the \$2 which a 50-cent bottle of Pinex saves you, but you do need the wonderful effectiveness of this famous cough remedy. It will usually stop the most obstinate deep-seated cough inside of 24 hours, and has no equal for whooping cough.

A 50-cent bottle of Pinex, mixed with home-made sugar syrup, gives you a full pint—a family supply of the most pleasant and effective cough remedy you ever used. Easily prepared in five minutes—directions in package.

The way this takes hold of a cough and gives instant relief, will make you regret that you never tried it before. Stimulates the appetite, is slightly laxative and tastes good—children take it willingly. It has a wonderful record in cases of incipient lung trouble and is splendid for croup, asthma, bronchitis, throat trouble, etc.

Pinex is a special and highly concentrated compound of Norway White Pine extract, rich in ginseng and other natural healing pine elements. Simply mix with sugar syrup or strained honey, in a pint bottle, and it is ready for use. Used by more homes in the U. S. and Canada than any other cough remedy.

Pinex has often been imitated, but never successfully, for nothing else will produce the same results. The genuine is guaranteed to give absolute satisfaction or money refunded. Certificate of guarantee is wrapped in each package. Your druggist has Pinex will gladly get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

Heartfelt Appreciation. A tourist was being conveyed through a rough country by a driver who boasted of his knowledge of all the roads, saying that he knew every stick and stone along the highway. After they had passed over a smooth piece of road they began to go bumpy-bump for several miles. Just as the buckboard came out of a hole about two feet deep the driver turned and said: "How do you like riding on a buckboard?"

At that instant the tourist happened to be about six feet in the air, and remarked: "I wouldn't miss it for the world."—Metropolitan Magazine.

PRES. TAFT MET CABINET TODAY

Washington, Nov. 14.—President Taft met the cabinet today for the first time in three months. All members with the exception of Secretary Stimson were present. This meeting gave recurrence to rumors that Secretary of Agriculture Wilson is about to resign and is delaying only until President Taft can find a successor to his post. It is understood that the president's advisors today pointed out that the work of the coming congress would center upon two main issues the tariff and the trusts. The president's councilors while making no announcement of the purpose, are said to be engaged in an investigation of the stability of an American currency reform and upon their report the action of the president will be based.

USE SAGE AND SULPHUR AND HAVE HEALTHY HAIR

What a pity it is to observe so many people with thin and faded hair and then realize that the most of these people might have a fine, healthy head of hair if they would but use the simple "sage tea" of our grandmothers, combined with other ingredients for restoring and preserving the hair. No one, young or old, with falling hair, dandruff, any trouble, of the sort if they would but use Wyeth's Sage and Sulphur Hair Remedy. On the contrary, it is possible to have healthy, vigorous hair, of perfect color, by a few applications of this remarkable preparation.

Wyeth's Sage and Sulphur Hair Remedy quickly removes dandruff, leaves the scalp clean and healthy, promotes the growth of the hair, and restores the natural color of the hair which has become faded or gray. It is a clean, wholesome dressing, which may be used at any time and with perfect safety. Don't neglect your hair. Start today with Wyeth's Sage and Sulphur.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special Agent—F. D. Hall, 10 North Side Square.

QUALITY OR QUANTITY

Which Do You Prefer? Newbro's Herpicide Represents Quality.

Did you ever have a dealer offer you a large bottle of something and tell you it was a better remedy for the hair than Newbro's Herpicide, and cheaper because in a larger bottle?

What? Certainly we knew you had. Many other people have, too.

What would you say to that same dealer were he to tell you a silver dollar was worth more than a five-dollar gold piece because it is larger.

Such an attempt being a reflection upon your good sense you would probably say some rather pointed things to him. There would be justified. Your self-respect would demand it.

Well, there are just as many good reasons for the difference in size between those bottles as there are for the difference in size between the silver dollar and the five dollar gold piece.

The truth is that the large bottle isn't half large enough.

There is more virtue in a half pint of Newbro's Herpicide than in a gallon of some of the so-called hair preparations.

There is a dollar's worth of results in the bottle of Herpicide, but do you know what is in the other?

No? Then why buy it? Your judgment, intelligence and the experience of your friends, if not your own, cry out against it.

You know when you go into that store that Herpicide is what you need and want.

You KNOW that Herpicide is the original hair prophylactic.

You KNOW that Herpicide kills the dandruff germ.

You KNOW that Herpicide stops falling hair.

You KNOW that Herpicide makes the hair light, fluffy and beautiful.

You know these things in the same way you know that the five dollar gold piece, notwithstanding its size, is more valuable than the silver dollar.

Then insist on having genuine Herpicide.

One dollar size bottles are sold and guaranteed by all druggists.

Applications obtained at the best barber shops and hair dressing parlors.

Send 10c in postage or silver for sample and booklet to The Herpicide Co., Dept. R., Detroit, Mich.

Bliss From the Proverb.

There's an old codger in Boston who affects to despise a college education. He never had one; he's very successful, and he doesn't see that a university training could have made him any more so. Therefore he sneers at some of the younger fellows who have had more educational advantages.

The other day he was "cuffing down a college subordinate. "If that's all your gift edged education has taught you," he growled, "by gosh, young feller, I'm thankful for my ignorance."

"Sir," the young fellow answered, bowing respectfully, "you have much to be thankful for."

WORK THAT TELLS.

Plenty of It Has Been Done Right Here in Newark.

Cures that last are cures that tell. To thoroughly know the virtues of a medicine you must investigate the cures and see if they prove permanent. Doan's Kidney Pills stand this test, and plenty of proof exists right here in Newark. People who testified years ago to relief from back-ache, kidney and urinary disorders, now declare that relief was permanent and the cure perfect. How can any Newark sufferer longer doubt the evidence?

Mrs. Charles Walton, 74 S. Second street, Newark, O., says: "I can vouch for the truth of the testimony, given by a member of the family in 1904, recommending Doan's Kidney Pills. They certainly are a wonderful kidney medicine. Price 50 cents. Fost-Milburn Co., Buffalo, New York, sole agents for the United States."

WHY SHE DIDN'T WIN.

They were at Monte Carlo, and, like other visitors to that insidious paradise, they considered the Casino a place which ought to be visited. They stood hesitating before one of the tables, and at last the temptation to join the players proved too strong for the lady.

"I must risk just one ten-dollar note," she said to her husband. "Give me one, darling, and I will put it on the number of my age. That is sure to be lucky."

Hubby was inclined to be skeptical, but of course he might have spared himself the trouble of grumbling, and the ten-dollar note was duly deposited on No. 24.

Alas! No. 36 proved to be the winning numeral, and the lady gave a little gasp of despair.

"Servo you right," said her great brute of a husband. "If you'd told the truth you'd have won!"—Tid-Bits.

The KITCHEN CABINET

MAKE us to meet what is or is to be. With fervid welcome, knowing it is sent to serve us in some way full excellent. Though we discount it all belatedly. James Whitcomb Riley.

CHOICE LEFT-OVERS.

Often most appetizing dishes may be prepared from a few left-overs that of themselves are of little value if used alone.

A really stylish dish can be made with any left-over meats and a sauce with a handful of fresh mushrooms, which are to be had for the gathering in most any place.

Shredded Ham With Jelly Sauce.—Put a half a tablespoonful of butter into a chafing dish or a saucepan and when melted add a half cup of currant jelly. Season with cayenne; add a cup of cold cooked ham cut in small strips, and a fourth of a cup of orange juice. Simmer for five minutes, then serve.

Left-over sponge cake may be cut into rounds and fruit juice poured over them, and on each a few stewed figs, prunes or any canned fruit may be placed. This makes a simple and easy dessert.

Mincied Mutton.—Mash the yolks of six hard cooked eggs and season with a fourth of a teaspoonful of mustard, salt, cayenne. Add a cup of cream and two cups of chopped cooked mutton. When thoroughly hot add a quarter of a glass of currant jelly.

Ragout of Veal.—Reheat two cups of cold roast veal, cut in cubes. In one and a half cups of brown sauce seasoned with a teaspoonful of Worcestershire sauce, a few drops of onion juice and a dash of cayenne.

Roast pork may be used in a meat salad, preparing it as for chicken salad, with celery and salad dressing. Small quantities of left-over vegetables, like corn, potatoes and a bit of celery may be turned into a most tasty salad.

Salmon Box.—Line a small bread pan, slightly buttered, with cooked rice. Fill the center with cold boiled salmon, flaked, seasoned with salt, pepper and a little nutmeg. Cover with rice and steam one hour. Turn on a platter and surround with any fish sauce preferred.

A MOTHER'S DUTY

It is the duty of every expectant mother to prepare her system for the coming of her little one; to avoid as far as possible the endeavor of such occasions, and endeavoring to pass through the crisis with her health and strength unimpaired. This she may do through the use of Mother's Friend, a remedy that has been so long in use, and accomplished so much good, that it is in no sense an experiment, but a preparation which always produces the best results. It is for external application and so penetrating in its nature as to thoroughly lubricate every muscle, nerve and tendon involved during the period before baby comes. It aids nature by expanding the skin and tissues, relieves tenderness and soreness, and perfectly prepares the system for natural and safe motherhood. Mother's Friend has been used and endorsed by thousands of mothers, and its use will prove a comfort and a benefit to any woman in need of such a remedy. Mother's Friend is sold at drug stores. Write for free book for expectant mothers, which contains much valuable information. BRADFORD REGULATOR CO., Atlanta, Ga.

Daddy's Bedtime Story

The Early Bird
Who Gets the
Early Worms

The Robin Babies Were
Always Hungry

"T'S the early bird that gets the worm, you know," said daddy as Evelyn and Jack begged for more—just a little more—time before going to bed.

"Which bird is the earliest bird, daddy?" inquired Jack. Jack had often put off the bedtime hour by asking questions.

"Just get ready for bed and I'll tell you. Once upon a time there was a little brown bird with a red breast, and his name was—"

"Oh, Robin Redbreast! We know him!" cried the children. "There are lots of them out there in the trees. We feed them every day if we don't happen to forget."

"Well," went on daddy solemnly, "Robin Redbreast lived in a tree, a maple tree just outside the window of certain children. They were fairly nice children, so Robin thought, for sometimes the little girl would scatter crumbs on the roof of the porch underneath her window, and Mr. and Mrs. Robin would hop down to eat the crumbs."

"Up in the tree the robins had a nest. It was made of grass stuck together with mud, and inside it was lined with soft little roots. Mrs. Robin laid four pale blue eggs in the nest, and by and by four funny little Robin babies crawled out of the eggs. The babies had wide yellow mouths, which they were always opening for food, and their little bodies were almost bare of feathers, so that Mrs. Robin had to cuddle them under her wings to keep them warm when the nights were chilly, as it sometimes are in the spring."

Papa Robin just had to get up early and work from dawn till dark. When he found a worm he would pounce upon it and beat it against a stone or a tree to kill it. Yes, I am really sorry for the early worms that Mr. Robin caught. In a few weeks the young robins were able to take lessons in flying, in singing and in hunting for bugs and worms. Then the little robins would go out into the woods and hustle for themselves.

"If the robin family got all of their children safely started in the world they were lucky, but in the bird world there are many mishaps. Sometimes a young bird seems unable to learn to fly or it may fall to the ground and be hurt."

"There is a pretty story telling how the robin got its red breast. Long ago little children were told this story about the robin. According to the tale, when Christ was dying on the cross the robin flew up to him and tried to help him by pulling the crown of thorns away from his head. In doing so, the story says, the robin's breast was pierced by the thorns. Since then, as a reward for its good deed upon that day, all robins' breasts have been red and everywhere robins are loved."

The Window of the Sportsmen's Supply House on West Church street contains a display showing a hunting scene which is depicted in a most natural manner. The window has been filled with leaves and a number of stuffed quail, which look very natural, have been placed in various parts of the window to show the methods of hiding from the hunter. A pointer dog, which is pointing to several quail and their young, is a feature of the display.

THE THIN AND WEAK.
Easy Way for Them to Get Strong and Fat.

To thin and weak W. A. Erman & Son have a word to say. Let them use Samose, the wonderful flesh-forming food, that is now so popular, and they will soon be plump and rosy.

Samose is not an ordinary medicine; it is a flesh-forming food that is adapted to the most delicate. Its tonic effect gives strength and health so that after its use for a short time, all the flesh and fat producing elements in the food will be easily assimilated and retained by the body.

The large sale Druggists W. A. Erman & Son have had on Samose since they first introduced it in Newark and the wonderful results following its use have made them such enthusiastic believers in its great merits that they give their personal guarantee to refund the money if Samose does not make thin people fat and restore strength and health.

When a gain in weight is noticed after Samose has been used for a week or ten days, and health has improved, and you notice yourself growing stronger, you certainly should feel more than satisfied with what you have received from the small cost of 50 cents.

'ECZEMA ITCHED SO I COULDN'T STAND IT'

Began by Little Pimples. Scratched Until Blood Came. Kept Getting Worse. Could Not Sleep Nights. Used Cuticura Soap and Ointment and the First Day They Relieved Itching. In 3 Weeks Eczema Cured.

"I suffered with eczema on my neck for about six months, beginning by little pimples breaking out. I kept scratching till the blood came. It kept getting worse, I couldn't sleep nights any more. I kept itching for about a month, then I went to a doctor and got some liquid to take. It seemed to do a little better. The itching was getting worse, but when it started again, was even worse than before. I was so itched so badly I couldn't stand it any more. I kept scratching and scratching till the blood came. I kept getting worse, I couldn't sleep nights any more. I kept itching for about a month, then I went to a doctor and got some liquid to take. It seemed to do a little better. BELIEVED MEN
WERE AFTER HIS
PREMIUM FOWLS

Supposed chicken thieves created considerable excitement in the section over the Granville Hill on Saturday evening, when Ovie Haynes fired several shots at two men who were prowling in his back yard. Haynes reported to the police department that he fired the shots and that he thought that he hit one man in the leg for when he fired some one hollered that he had been shot. Haynes followed a short and a tall man to a thicket near his residence but gave up the chase, fearing that the men might have a weapon in their possession and return the fire, while they were under cover. Previous to this time some fine chickens have been stolen from Haynes and he had made up his mind to take no further chances.

The City Problem
And the Young Men's
Christian Association

Thomas Jefferson looked upon the large city as a menace to the Republic. Surely, the government of such masses of people is one of the greatest problems of today. The rapid growth of these masses together with the impinging of the native and foreign population and ideas in many instances has become alarming. The high cost of living and the uncertainty of business conditions along certain lines, have often caused great discontentment among those who work for a wage.

Forty years ago the United States was twice as big agriculturally as industrially. Today the order is reversed. She grows rich at the rate of more than \$7,000,000.00 a day, principally through industry, but every minute of every day a worker is sent from industry to the hospital or to the grave.

The mission of the Young Men's Christian Association in such a world is one of friendliness. It seeks to bring contentment to the working man by furnishing him those things which he demands for his social well being. It seeks to show him a way of life which will bring him the greatest amount of happiness.

A working boy who was about to leave town remarked to the secretary "a social evening like this makes me want to stay here." Statistics show that only two out of five pupils finish the eighth grade, while only two out of twenty-five complete high school. It can be shown that every day a boy spends in school is worth \$10.00 to him. Many boys seem to be forced to leave public schools from necessity. The Association meets the needs of these young men by furnishing evening classes at a price so low that no young man need deprive himself of these opportunities.

From the employers point of view the Association is a valuable asset. For its aim is to make a man better fitted for his work. Railroad companies and large industrial concerns have seen this point of utility, actuated by their appreciation along these lines. Judge Gary of the United States Steel Corporation is giving a \$200,000.00 building and equipment for the city of Gary, Ind.; Studebaker company a \$300,000.00 equipment for South Bend, Ind.; The Ball Brothers, fruit jar manufacturers of Muncie, Indiana, \$100,000.00 toward a building in their city, and Mr. Julius Rosenwald, president of the Sears, Roebuck company gave \$100,000.00 for a building in Chicago, located near their plant.

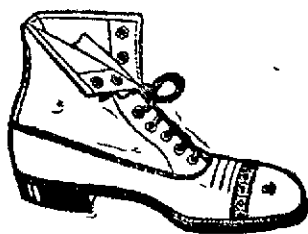

Judge Selden P. Spencer of St. Louis recently said: "The Y. M. C. A. has done more for the safety of the traveling public than all the safety appliances ever invented."

The Association seeks "to live in its house by the side of the road and be a friend to man."

quartet, furnished by the Republican Glee Club, will flavor the occasion with harmony.

In the interest of equal rights, Miss Bertha Coover of London, corresponding secretary of the Ohio Woman's Suffrage Association, yesterday afternoon gave a short talk to members of the grange. She thanked them for recognizing the equality of rights, as shown by making women eligible to office in the grange, and asked for a resolution calling upon delegates to the constitutional convention to grant votes to women.

The interior of the Chamber of Commerce Auditorium had the aspect of a mighty Thanksgiving Day celebration yesterday. The platform was loaded with fruits, vegetables and grain. Sheaves of corn, artistically arranged, lent a rural atmosphere to the big assembly hall.

Three additional agricultural conventions will open in Columbus today. Sessions will be opened by the American Society for the Advancement of Agricultural Teaching (today only, sessions morning and evening), the Society for the Protection of Agricultural Science, and the American Farm Management Association. The last named organization is entering on its second year. W. J. Spillman of Washington is secretary.

Prof. A. G. McCall, head of the agronomy department of Ohio State University, read the feature lecture yesterday before the agronomists of Ohio Union. He gave a preliminary report on field study of soil moisture. His lecture, like others read before experts in agronomy, was technical.

Professor McCall explained an apparatus invented by him which makes possible the separation of mother soil from that about it without disturbing it. With the appliance which he explained to the delegates, it is possible to measure the exact amount of water that goes in or out of a soil box and also to note the amount of vegetable or grain product gained under certain conditions. It is Professor McCall's aim to learn exactly how much water is needed to produce certain things under varying conditions.

C. N. Coffee of the Ohio experimental station at Wooster read a paper

on "Wiltling," prepared by Lyman J. Briggs and H. L. Shantz of the United States department of agriculture. The paper explained the application of wiltling coefficient determinations in agronomic investigations.

T. Lytleton Lyon of the Cornell (N. Y.) experiment station, advocated the use of small plots in field experiments.

Fifty delegates attended the agronomy sessions yesterday. The gathering of agronomists incident to the several agricultural conventions has brought to Columbus two of the best known soil experts in the United States. They are E. G. Montgomery of the University of Nebraska and C. G. Williams of the Wooster experiment station.

Announcement was made yesterday that Mr. Montgomery has received and accepted an offer to leave the University of Nebraska and take charge of the department of agronomy at Cornell University.

Grange Convention Considers Many Important Items

Columbus, Nov. 14.—An extended parcels post, good roads, conservation, the direct election of United States senators, and extended teaching of scientific agriculture are some of the things promised endorsement by the Ohio State Grange, which is in session here this week. Many national figures in the agricultural world are attending one or more of the eight agricultural conventions in progress here this week. Steps will be taken by several of the organizations to have the entire number amalgamated into one.

Mary Emerson and Co. Next Week. Many inquiries have been made regarding the coming engagement of Miss Emerson and her company at the Auditorium for the week of Nov. 20, presenting a series of her own successes, augmented by a number of the Frohman plays and a special production of Mildred Holland's great play, "The Power Behind the Throne." This season Miss Emerson is surrounded by the best acting company she has ever selected.

AMUSEMENTS

Last Night's Play.
"The Old Homestead," the play which Denman Thompson originated and kept a favorite with theatre-goers for over a quarter of a century, played at the Auditorium theatre Monday evening for the first time without the man who made its fame. Playing the role of Joshua Whitcomb was William Lawrence, who is a worthy successor to Denman Thompson. He has caught all the small characteristics which abound in the character, and is suited for it as to appearance.

The play is well known and all the characters were given by a cast that was well balanced and exceptionally capable. The double quartet was made up of voices of remarkable harmony and the singing of the bass and tenor was superb.

What the Press Agent Says

Tonight marks a big theatrical event at the Auditorium theatre, inasmuch as probably this will be the last opportunity the patrons of the theatre will have of seeing William Collier at a local playhouse. Mr. Collier has never played here before and probably never will again. He is without doubt conceded to be one of the greatest actors of the American stage. Mr. Collier should be greeted by no less than a capacity house. Aside from the importance attached to Mr. Collier himself he is surrounded by a company of stars.

William Collier.
The Auditorium will offer as an attraction Tuesday, Nov. 14 one of the most thoroughly established favorites, William Collier, who will be seen for the first time here in his latest comedy, "Take My Advice." Mr. Collier has been coming here for a number of years, during which time he has presented several laugh-provoking plays, many of which he has collaborated in. "Take My Advice" is the result of the combined efforts of Mr. Collier and James Montgomery. It was written during the summer months at Mr. Collier's summer home at St. James, L. I. Its premiere occurred on Sept. 16 at Wilkes-Barre, Pa. Since that date he has played it in a few of the larger cities, where, it is claimed, both star and play have met with cordial receptions.

Buster Brown.
Never has the wit of R. F. Outcault, author of "Buster Brown," New York's musical comedy success, which will be seen at the Auditorium theatre on Wednesday, Nov. 15, matinee and night, been so spontaneous or so provocative of genuine laughter as in this play.

This season the management has provided this production with a cast that is far above the average and contains voices that go far making it a grand opera production. D. J. Murphy, ably supported by Mary Jane, Tige and a large chorus of sunbursts and roses which are blessed with nimble toes as well as wonderful voices, go far into the land of fun, to make the old happy in the forgetfulness of their age and the young swell with pride at their youth.

The Rosary.
Every theatre-goer in this city knows that "The Rosary" was the

RHEUMATISM SELDOM KILLS

The Chief Danger Is from the After-Effects Caused by the Condition in Which It Leaves the Blood.

Statistics show that very few victims of rheumatism die from the disease directly. The worst feature of the disease from the standpoint of mortality, is the legacy of thin blood and shattered nerves that it leaves.

The best treatment for rheumatism is rest, in bed if possible, and a supporting or tonic medicine which will keep up the strength of the patient and repair the thinning of the blood which is always present in this disease. Dr. Williams' Pink Pills are such a remedy and have been used with marked success in thousands of cases.

Mr. Myron Adams, a resident of Bad Axe, Mich., has been permanently cured by this treatment and his gratitude prompts him to make the following statement for the benefit of those who suffer:

"After working for a long time in the lumber camps, going through exposure to dampness and suffering from colds," he says, "I had an attack of rheumatism, that lasted two years. It affected my arms and shoulders and quick, sharp pains ran all through my left side. My arms, principally the elbows, were sore to the touch. My back was lame and the kidneys affected. I could not lie down to sleep, because the pain would then be too severe, but had to be bolstered up in a chair. I had no appetite, could do hardly any work and began to think life wasn't worth living."

"I had different doctors who tried me for a time, but the trouble always came back. I read about Dr. Williams' Pink Pills for Pale People in a paper and, chancing to talk to a neighbor about them, found he had been cured of rheumatism by these pills. I immediately bought some and could see after taking a few boxes that they were helping me. I took them a while longer and haven't had a touch of the trouble since. I cannot tell how much I value Dr. Williams' Pink Pills for Pale People."

These pills can be obtained at any drug store or direct from the Dr. Williams' Medicine Co., Schenectady, N. Y., at 50 cents per box; six boxes for \$2.50. A valuable booklet, "Diseases of the Blood," will be sent free upon postal card request.

most talked-about play in the popular-priced houses last season. This play struck the popular chord of the people, and with its many human interest qualities it proved to be immensely enjoyed. Owing to its last season's success, "The Rosary" is being repeated again this season by the well known producers, Rowland & Clifford, and it comes to this theatre Saturday, Nov. 18, matinee and night.

"The Rosary" tells a modest and unassuming story of how the watchful and protective influence of a good priest ultimately restored the happiness of a home that has been wrecked by the evil plotting of one who coveted his neighbor's wife, and sought revenge because his rival had won the love of the woman to whom he had paid suit in the days when she was free to choose between them.

In consistent action, increasing in what seems certainty of guilt, is easily engendered even where absolute innocence prevails, and the story's progress makes plausible its culmination in what seems irremediable disaster.

Erman & Son Desire to Announce That They Are Agents for Thompson's Barosma, the Money-Back Kidney and Liver Cure.

There are hundreds of people, young and old, right here in Newark, who are taking medicines for various ailments, who do not even suspect that the kidneys are to blame.

These sufferers do not know that in all probability their kidneys are all clogged up, are inflamed or congested, and are unable to properly filter the impurities from the blood.

It is the kidneys that keep the blood pure, and if the kidneys are not in good condition, disease of other organs of the body will surely develop.

Thompson's Barosma will cure any disease of the kidneys, or Erman & Son will give you your money back.

If you are in ill health now, and are not absolutely certain of the cause, get a 50-cent bottle of Thompson's Barosma at Erman & Son's today. It will make you feel better in a day. PULITZER MILLIONS.

(Continued from Page 1.) month, but it had not been executed. The will was executed in April, 1904, with several later terms in codicils. In addition to the provisions for the sons, Mrs. Pulitzer is given the income of a fund of \$2,500,000 and two daughters are provided for by an income of a fund of \$1,500,000. The income of \$1,500,000 is set aside for the perpetuation of scholarships at Barnard college, which Mr. Pulitzer established some time ago in the memory of his daughter, Lucille.

At any time within seven years after the death of Mr. Pulitzer the executors shall be satisfied that the school of journalism established at Columbia is a success, it is directed that Mr. Pulitzer's additional gift of \$1,000,000 be paid over, and in this connection the will outlines a number of novel prizes to be awarded annually, including:

One thousand dollars for the best paper on the future development and improvement of the school of journalism; gold medals costing \$500 for the most disinterested and meritorious service rendered during the year by any American newspaper; \$100 for the best history of the services rendered to the public by the American press during the preceding year; five annual traveling scholarships of \$1500 each; \$1000 for the best example of a reporter's work during the year, the test being strict accuracy, terseness, the accomplishment of some public good commanding public attention and respect; \$1000 for the American novel published during the year which shall best present the wholesome atmosphere of American life; \$2000 for the best book of the year on the history of the United States.

One thousand dollars for the original play performed in New York which shall best present the educational value and power of the state in raising the standard of good morals, taste and manners; \$1000 for the best American biography teaching patriotic and unselfish services to the people.

If by reason of the determination of the executors of the determination of the school of journalism to agree upon the plan of prizes, the \$1,000,000 is to revert to the trustees of Harvard University for the establishment of a school of journalism, and half of the sum is to be used for prizes and scholarships as described in the will.

EDGAR OWENS WILL BE NEXT CASE HEARD

In Connection With Etherington
Lynching, the trial Having Been
Set for December 4.

The next case in connection with the lynching matter to be tried in the Common Pleas court is that of the State of Ohio against Edgar Owens, which is set for December 4. The defendant is a son of William Owens, aged about 25 years, and lived with his parents at their home on Burr avenue in the West End. He was a bartender for William Howard at the time Howard was shot by Etherington. Prosecutor P. B. Smythe, assisted by Attorneys Miller and McMiller of Columbus represent the prosecution while Jones & Jones are the attorneys for the defense.

GRAEF CASE

(Continued from Page 1.)
of the prosecutor or Mr. Miller or Dr. Wright.

Judge Weygant dismissed the witness summarily with the remark to Prosecutor Smythe: "You have not put yourself in a bad light with this court but this witness has."

Mabel Thorpe Bradford testified that she heard Graef make the remark about bringing him out and "he would shoot him." Continuing, witness said some colored man had gone down the street and was asked to help to which he replied, "No, I've done my share."

Cross-examined by Mr. Tompkins: "Don't think what Graef said had any effect upon the men battering upon the jail door."

Questioned by Judge Weygant: "Don't know if Graef was drunk or sober."

Norton Suter, bookkeeper at First National bank was examined by Mr. Miller.

"At the time the patrol wagon was going down Third street with Etherington," heard Graef say, "go get the

"If I could I would myself," Graef was then in his automobile, which was in the path of the patrol wagon.

"Joe Moser said to me today: 'I see you are up again; well make it as light as possible; that's what I am going to do.'"

Cross-examination by Mr. Fitzgibbon brought out nothing.

Anthony Stare was examined by Mr. Miller:

"Saw Graef in his automobile on July 8, 1910, about 2 o'clock, as the patrol wagon was coming down street," heard Graef say something about "getting him out."

"Heard Graef say to crowd on canal bank after Etherington had been taken into the jail, that if he was able he would take him out."

FRATERNAL SOCIETIES PROTEST

Cincinnati, Nov. 14.—From all fraternal organizations a protest has arisen over the ruling of Attorney General Hogan that fraternal funds are taxable. On "public charities" are exempt according to the ruling of Mr. Hogan, and organizations whose benefactions extend only to widows and children of the members must be taxed. A test case will be filed by some Cincinnati organization seriously affected by the ruling.

A Father's Vengeance
Would have fallen on any one who attacked the son of Peter Bondy of South Rockwood, Mich., but he was powerless before attacks of kidney trouble. "Doctors could not help him," he wrote, "so at last we gave him Electric Bitters and he improved wonderfully from taking six bottles. It's the best kidney medicine I ever saw." Backache, tired feeling, nervousness, loss of appetite, warn of kidney trouble that may end in dropsy, diabetes or Bright's disease. Beware! take Electric Bitters and be safe. Every bottle guaranteed. 50c. at F. D. Hall's.

BOY ADMITS HE KILLED MOTHER AND SISTER

Guild Hall, Va., Nov. 11. Without any sign of emotion, Arthur Bean, aged 19, of Maldstone, in court here pleaded guilty to murdering his mother and 15-year-old sister Nina last March. Today Judge Duder will decide on the degree and impose sentence. With a rifle slung over his shoulder, Arthur entered the house of a neighbor, March 9 and calmly announced his mother and sister had been killed. He said he was hunting for the murderers. The boy was arrested after the women's bodies were found.

MAY SETTLE THE NEW YORK STRIKE

New York, Nov. 14.—Some headway was made today against the immense heap of garbage and refuse that has accumulated at the rate of 50,000 tons since the strike of the garbage drivers began. Strike breakers are being used by the city to remove the rubbish. No violence has been reported. Thirty-five hundred men are expected to arrive by tonight by the firm importing strike breakers and with the help of these the municipality hopes to resume the regular collection. A general teamsters strike is now the only weapon left the striking drivers with which to combat the city. This falling the strike will probably be ended.

RODGERS SAYS HE WILL FINISH LONG FLIGHT

Pasadena, Cal., Nov. 14.—Calvin P. Rodgers, the transcontinental aviator, recovered consciousness long enough last night to declare that he would yet fly to the Pacific shore in spite of the fall he suffered while trying to fly 23 miles to complete his ocean to ocean flight. He muttered to his attendants:

"Oh, I'll finish that flight, all right."

The aviator, who suffered concussion of the brain in his fall of more than 100 feet at Compton, added that he expected to complete his flight just as soon as he was sufficiently recovered from the bruises and sprains resulting from Sunday's ac-

REORGANIZATION OF PACKING COMPANY

Chicago, Nov. 14.—With the trial of the members of the "beef trust" set for next Monday in the United States district court on the charge of criminal violation of the Sherman anti-trust law it became known today that since the return of the indictment here there has been a complete reorganization of the National Packing company. Private weekly meetings at which government charges were discussed, rates fixed and territories allotted have been discontinued and in turn given place to monthly meetings which are now held by the directors.

DOUBLE DEATH MYSTIFIES POLICE

Chicago, Nov. 11.—An investigation was begun into the death of Stella Cera and Frank Myroek, whose bodies were found today in a gas filled room two hours before they were to have been married. A brother of Myroek, who was to have acted as groom along with a bride-smat called for the couple and receiving no answer, broke into the room where the bodies lay.
